

Rachel Stansberry  
Bowdoinham  
LD 1883

Dear Senator Bailey and Representative Mathieson and Committee Members,  
I am a resident of Bowdoinham and I am writing because I support LD 1883, An Act  
to Enact the All Maine Health Act. There are many reasons to support this and I  
want to focus on the problems that are created by an inefficient system. I am retired,  
not yet 65, and living on a fixed income. I am currently insured through the  
Affordable Care Act with a very high deductible. Like many people my age, I delay  
care and cut pills in half to save money. I am fortunate that I can pay my health care  
bills, but I know that many people are burdened with Medical dept. As you may  
know, the Maine Center for Economic Policy(MECEP) study in 2019 & 2024 showed  
that costs in publicly funded plans would be about the same as the current system and  
we could cover everyone for the same cost. I urge you to learn more and vote yes on  
LD 1883.
