

Claire Holman  
South Portland  
LD 1216

Dear Legislators,

I urge you to strongly support LD 1216. Our state needs to take a strong stance on suicide prevention. This bill will require the support of the 988 suicide 24/7 phone line. Anyone who has been touched by suicide [and that includes many, many Maine families] knows how painful it is and how far that pain reverberates. Research shows that prevention works and that those who are helped are thankful.

Please support this important legislation.

Thank you.
