LD 1259

I am writing in support of LD1259. I am against any requirements that local law enforcement has to cooperate, detain, or provide information to ICE or Border patrol. Our local and State law enforcement have a different mandate. Our law enforcement should not be drawn into politics, or be asked to consider negating someone's due process rights.

Our law enforcement officers have enough to do without being asked to take on additional tasks. Please pass LD1259.

My name is Melissa Berky and I live in Bangor, ME.
