

Jane Farthing
Thomaston
LD 1259

I support the bill LD 1259.

I believe it is in all our interest that local law enforcement be contained to our immediate community needs. Entering into agreements to enforce federal immigration law is not a good idea. It involves our local agencies to understand the complexities of law that is not part of local training. I believe it can cause more problems and put our towns and citizens in more risk not less.
