LD 1982

I URGE you to vote OUGHT TO PASS on LD1982, An Act to Ensure Uniformity in the Regulation of PFAS. I think it is a good idea to clarify our definition of PFAs on the actual formula. This will make us more in alignment with the U.S. Environmental Protect Agency. We have waffled on this definition for some time now and I'm not sure anyone ever understood the real definition before. Now we have actual formulas. This will mean more clarity in our decision-making for these properties. I think anything that gives more clarity is a good thing, especially in law-making and our environmental laws. Thank you for making yourself well aware of these products and how to deal with them to make us all safer and the users of these produce safer as well. Thank you!
