LD 1971

I am writing in support of LD 1971. I believe that all Maine residents deserve the right to a fair trial and should not be detained on the basis of racial profiling. Immigrants are an integral part of our society, and people shouldn't be afraid to move here or have their lives and careers put at stake because the federal government is permitting the whims of one officer to ruin someone's life. Maine is better than this. Please vote yes on LD 1971 and protect Maine's workers, immigrants, and people.
