Please support preventing all law enforcement agencies (state, county, local) as well as other officials from collaborating with Immigration and Customs Enforcement (ICE) and Border Patrol in any of their current, and future, actions and policies they're doing of kidnapping people off the street, flying them away to undisclosed locations, holding them and attempting to deport them without process, hearing, or trial.

ICE is acting in a harmful, unaccountable, unconstitutional, illegal way. This is a direct attack tearing apart our communities, and our families, our state, our country, our governance, and Maine Police, Sheriffs, and other officials, should not be helping ICE do this.
