

Patricia Prieto
Portland
LD 1971

Dear Judiciary Committee Members,

I support LD 1971 because I believe that local and state law enforcement should focus its efforts and resources on controlling crime in our communities, rather than taking on the responsibilities of the Department of Homeland Security. The bill in no way interferes with legitimate law enforcement activities, but it does offer some protections for state employees and for our immigrant neighbors who should be able to go about their everyday lives without fear of arrest, imprisonment, or family separation.

Thank you for your consideration of this bill.
