Warren
LD 1971

We wish to express our full support for these two bills (LD1259 and LD1971) that would protect the rights and safety of our Maine immigrant community.

The current atmosphere of the militarization of law enforcement and the surveillance, arrest and abduction of countless people from the streets of America is highly concerning. Already, at least 113 immigrants have been seized from Maine communities.

Maine has a proud record of welcoming and supporting immigrants. Our state has also been at the forefront of standing up for democracy and the civil rights of our residents. We urge you to pass these bills in order to add to those protections.

Thank you,
Donald and Linda West
