I oppose LD 1883 "An Act to Enact the All Maine Health Act."

This bill proposes a sweeping government-run health care system that would upend Maine's health care marketplace, put immense financial pressure on the state's taxpayers, and reduce patient choice and quality of care. While well-intentioned, this proposal is modeled on ideas that have failed in other states and ignores practical, sustainable, and market-oriented reforms that would truly improve health care access and affordability in Maine. Government run programs of this size are not efficient, limits choices and are not in the best interest of the patient.

I oppose LD 1883 and it "ought not to pass."
