LD 1259

Dear members of the Judiciary Committee,

I write to you today asking you to support the passage of LD1259. Let Maine Law Enforcement center their work as they have been. Deputizing municipal police to unlawfully arrest our community members is by no means the definition of our democracy. It will cost our state dearly in all ways, not the least of which is financially. The terror this will bring to our communities will be devastating. Again, I ask you to unequivocally support LD1259- I trust you'll act in efforts to maintain our democracy by doing so.
