LD 1378 - An Act to Protect Maine Communities by Enacting the Extreme Risk Protection Order Act is unconstitutional as it goes against the 5th Amendment where as a person is innocent until proven guilty , there is no due process involved in Red Flag Laws and the 4th amendment of illegal search and seizures. Yellow Flag laws work when procedures are followed and is also the least confrontational for all that are involved. We need to focus on getting more mental health facilities and not laws that will hurt more people then it will help.
