

Elizabeth Adams
Portland
LD 1378

One of my daughter's best friends died from suicide by gun. She was in her twenties and a vivacious, loving young person who only needed an adjustment to her medication. Red flag laws help prevent these terrible firearm suicides. It only takes one such senseless death in your life to make clear how absurd it is we do not do more to prevent these deaths. Please vote in favor of LD 1378 and join 21 states and Washington DC in enacting this critical ERPO proven to reduce suicide, the number one cause of gun deaths in Maine.
