

In support of LD1941: An Act to Implement Recommendations of the Commission to Examine Reestablishing Parole

Good Afternoon senator Carney, Representative Kuhn and the wonderful esteemed members of the Judiciary Committee. I am taking this opportunity to write you this testimony and introduce myself. My name is Troix Malik Auguste and I am from New York. I'm providing my testimony in support of LD1941, an act to support reentry and reintegration into the community.

My testimony to support the reentry and reintegration into the community is for all delegates and Senator Carney to please absorb and understand that we have to acclimate back to society with no criteria for support from our community. They want us to change our ways of survival but don't give us the tools and support. What I have experienced and observed is that they will put us in a sober house with no real drug habits, or put us in a shelter that has the same attributes as prison. My ambition is to become successful and also become and advocate for incarcerated people that need support. It is grave that the Judicial Committee absorb this information because we need help.

In conclusion, I would love for Senator Carney, Representative Kuhn and the wonderful esteemed members of the Judicial Committee to please understand our pain and give us people a chance in the community. It's imperative that the committee give us more programs and trade schools.

Please and Thank you,  
Troix Malik Auguste
