RE: LD 1730 An Act to Make Small, Portable, Plug-in Solar Generation Devices
Accessible for All Maine Residents to Address the Energy Affordability Crisis

I am writing in support of LD 1730 which would allow solar power to directly power part of the electricity of Mainers. This kind of "plug-in balcony solar" is successfully used in Europe. And Utah has already passed this legislation.

It is practical and economical.

Please pass this bill to help Mainers with their escalating electric bills

Thank you.
