

Annie Kiermaier
WEST ROCKPORT
LD 1730

Please support passage of LD 1730. As a person of faith (Unitarian Universalist), I believe in the interdependent web of all beings and in saving our planet from the destruction of the climate crisis. Passage of 1730 would allow many more people to contribute directly to the creation of solar energy in Maine and would therefore help reduce Maine's climate "footprint." The more Mainers who can access solar energy, the more we can work together for our future. Thank you. Please vote Out to Pass.
