Wells  
LD 1911

I am writing in support of LD 1911 because this bill recognizes that people are more than their worst mistake and that accountability must include the opportunity to move forward.

When individuals have completed their sentences, complied with the law, and rebuilt their lives, they should not continue to face permanent barriers to employment, housing, and stability.

LD 1911 offers a fair and thoughtful path forward, one that strengthens families, communities, and Maine's workforce while upholding public safety. I urge you to support this bill and give Mainers who have done the work a genuine chance at a clean slate.

Thank you for your consideration.
