

Dorie Oakes
Rumford
LD 1962

My name is Dorie Oakes and I live in Rumford. I am writing in favor of LD1962. Any time that communication is enhanced between people and any authoratative entities within a community system is essential to the promotion of inclusion and understanding.

An Ombudsman creates paths to equality for all that are served and all that are being incarcerated to have a voice.

I believe an Ombudsman will repair broken links to the administration. This will save on time and money in having to do less damage control and more preemptive conflict resolution.

Please pass LD 1962 and encourage safe communication in the prison systems and then consider expanding to jails too.
