My name is Aaron, I am a student at the Alternative pathways center in biddeford maine. I don't support LD 1009, which talks about restoring gun rights to nonviolent felons.

An article posted by the U.S. Department of Justice says that one in five (around 20%) of non violent offenders are reincarcerated with a violent charge. With this being said people who have been charged with a non violent felony could commit a violent crime. If you were to give them the right to bear arms again it would make it dangerous.

I hope you take my testimony into consideration.

Sincerely

Aaron Blow
