

Sheril Stamand
Farmington
LD 555

This is sheril stamand Anthony's mother I rather have child protective services get involved with Anthony bailey my son when he is over 18 years old he is 27 years old when he is severe autistic and give his father parental rights as child protective services can give parental rights to me and work with district court to get parental rights of my adult son with developmental disabilities that can't take care of himself and his father and also I don't want no more adult protective services I just want child protective services and they can help reunite my adult son with severely autism and they can do reunification with my adult kids and I never get to see my son
