Veterans And Legal Affairs: LD 33 An Act to Amend The Laws Governing Fantasy Sports Contests. I am against this because fantasy sports should be a fun thing between friends or even just people you met online. If you guys choose to gamble on it, then it shouldn't be taxed. If it is going to be taxed, it should be only bets above a set amount. I see that this bill is also proposing a change in licensing status. I researched how long it takes to get a license; it's about 6 months to a year. Then I looked at how long they last. They only last a year and you have to pay 2500 dollars. Not only would it not be realistic to assume that someone is going to do that but also to assume they have 2500 dollars to spare when starting up a company. And this bill will also double the price. I feel that is unfair to people trying to start a fantasy sports company
