

Diana Merenda
Surry
LD 1383

I have lived in Surry in the State of Maine for 4 years and feel that Maine is closest to the values I hold. For that reason, I am honored to speak in favor of LD1383 because I wish to shout LOUD AND CLEAR that Maine should be the first state in the nation to take tax dollars and investments back from corporations that are responsible for destroying lives locally and abroad. My understanding is that LD 1383 is the sister bill to LD 1971 ending Maine's direct collaboration with ICE which will finally become law. NOW it's time to pass LD 1383 and stop investing our state tax dollars in corporations that arm genocides and aid unlawful ICE detentions.
