

Erica Dubois
Bangor
LD 1383

Dear Distinguished Members of the Committee,
I regret that I cannot join the chorus of voices in the room with you, today, to urge the passage of LD 1383.

Every day, I try to make financial choices that reflect my moral values, and I believe that the State ought to do the same. To profit off suffering is wrong.

Maine should lead in compassion and true fiscal responsibility by pursuing investments that make our world a safer, healthier place.

Thank you for your time.
