

Kathleen Kamzelski
Stockton Springs
LD 838

While several of the members of this Committee, which represents the majority of the Committee I may add, are sponsoring this Bill, I firmly do not believe that any of you have considered the ramifications of what you have proposed and are sponsoring. The people of Maine deserve better than this. Your constituents deserve better than this. If you approve this Bill, you will be allowing a group of non-elected individuals who do not represent a cross-section of all interested parties to take land/property wherever and whenever the proposed group desires and answer to NO ONE. This group will not pay any taxes but will be allowed to issue unlimited municipal bonds without voter approval. Additionally, there is no oversight or accountability established prior to any actions they may take. Basically, LD 838 is a very bad Bill for the voters and home/landowners of Maine and I urge every Committee Member to vote NAY on LD838.
