

Cathy Strout
Harrington
LD 838

Dear Sirs:

I am a long term resident and business owner in Harrington, Maine and I strongly oppose LD 838. My husband and I have worked extremely hard for years building businesses in Downeast Maine and managing them. We have raised 5 hard working children who not only work hard every day at their jobs but also have all been involved in working at creating businesses and jobs for other people. We have built all of these things from the ground up. It is not right that our government should then be able to come in and take over and do whatever they want with our property. I don't know who came up with this bill but it is totally unethical to take someones property that they have worked so hard to buy and build on, all in the name of "Clean Energy" I am against this new Authority!
