

Katie Dobos
Scarborough
LD 2052

Dear Members of the Education and Cultural Affairs Committee,

Thank you for the opportunity to provide written testimony in support of LD 2052.

I am concerned about the growing amount of screen-based instruction. A strong body of research shows that even limited learning on screens can be detrimental to children's academic outcomes, attention, and overall well-being.

Now is the time for bold, research-backed action to support student learning and healthy development. This resolve represents an important first step.

I respectfully urge you to vote to pass LD 2052.
