

James Melloh
South Portland
LD 1383

Dear Committee Members,

A genocide has been happening under our watch these past two years. Tens of thousands of Palestinians have been killed, women, children, elders, fathers, journalists, medical and aid personnel. Ruthless human rights abuses are occurring daily. Starvation, dehydration, hypothermia, disease, bullets, and bombs are the weapons. Our federal government has not had the moral fortitude to even stop aiding these crimes against humanity.

It is the duty of every person on this planet to stand up to genocide.

LD 1383 is a step Maine can take to say "No" to these atrocities. Maine pension funds should not be further enabling these outrages.

I believe LD 1383 reflects the will of the people of Maine. Please move it forward.

Thank you for your compassion.
