

Hannah Harm  
Waldoboro  
LD 1383

Good Morning,

My name is Hannah Harm and I have been a Maine State Employee for almost 6 years. This mean I am fully vested in MPERS. The way this state invests to serve the pensions of current and future retirees is a matter very important to me. Our retirements should not be built on blood money put into corporations that make weapons and technologies of distraction. Let's keep Maine the way life should be; built by investing in care for our community and our world. Please devest from dangerous investment that perpetuate genocide.
