I support increasing infant and toddler CCAP payment rates because...  
Currently we have infant and toddler families on our waitlist who receive CCAP.  
Unfortunately, because of the huge difference between what our tuition rates are and the rates with CCAP I can only afford to have no more than 1 family in our infant and toddler program. Infant and toddler care is a huge demand in our community and to alleviate the challenges to find quality care one of the solutions is to increase the rates.

I support establishing a grant program that helps child care businesses plan for non-traditional hour care because...

I support this idea for the professionals in our community who don't have traditional working house. I meet many families who have moved to this area for their profession without the support of their families and friends. They find the solution for care Monday-Friday but are challenged to find care for the weekends or after 5:30 in the evenings.
