

Sarah Hazzard
Standish
LD 1383

Good morning and thank you for hearing my testimony in support of proposed bill LD 1383.

It has come to my attention that Maine has \$10 million invested in Boeing and \$141 million in the fund owning Signature Aviation, corporations that support both genocide across the globe and harmful operations such as ICE deportation flights right here in our home state.

As a lifelong Mainer, I urge you to take a stand against human rights violations and put the safety of our local and global communities first by divesting from these interests. Hate and terror have no place in our home state.

Thank you for listening to my concerns, shared by many other Mainers. I write in strong support for proposed bill LD 1383.
