

Nell Bridger  
Portland  
LD 1383

Hello,

I am a nurse of over 15 years and currently work as a school nurse in Portland. As a participant in the Maine PERS pension system, I want to see Maine divest from corporations, countries and individuals who enable and support genocide and other human rights violations. Please help Maine lead the way in investing our money in more worthy and humane operations. Please support passage of LD 1383.
