LD 1383

LD 1383 ought to pass.

It is the absolute minimum we should do as a people, and as a state, to resist our nation's depraved bipartisan support for Israel's genocide in Gaza.

And the fascist abuses by ICE goons.

What do these two have in common?

Murderous hatred for non-white people. Imperial domination. Nihilistic global destruction.

If we are human, we must push back.

Pass LD 1383.
