

Emanuel Pariser
Waterville
LD 1383

Dear State and Local Government Committee Members,
I am writing to support LD 1383. I do not believe the State of Maine should invest in businesses that have any connection with violating human rights anywhere in the world. These are our tax dollars. I invest in corporations and businesses that are socially responsible, and I expect the State of Maine would do the same.
Many thanks for taking this issue up!
