I am Simon Gonzalez great grandmother.
The day I got the phone call from my son Jason Small was one of the worst days of my life.
I heard my son cry so hard and tell me he wanted to go to heaven with Simon because Simon couldn't go alone.
I never want to hear another parent, grandparent, great grandparent or for that matter another relative of any kind hear those words! We need to make busses safer for all children! This includes bus monitors for all busses and other safety features for busses. Door sensors, 360 cameras and retraining of bus drivers. Let's protect our children.
I worked for a school district for 17 years here in Maine. The safety of children were always our top priority!
Let's make their safety top priority AGAIN!
