Resolve, to Study the Use of Technology in Classrooms and Study Safeguards  
Related to Its Use

My name is Carolyn Bancroft and I live in Bath. I am the parent of two children in the RSU1 schools. I'm writing in support of LD 2052. My partner and I are deeply grateful to the educators that care for and teach our children on a daily basis in Bath public schools. The burden on educators in our public schools is immense, and they face increasingly complex demands and resource constraints. I work in public health and believe that a rigorous review of evidence is essential to understand the impacts of interventions such as education technology.

This bill will gather additional information about educational technology to ensure its use is evidence-based, appropriate, and safe. I hope this work will support shared goals for parents, educators, and administrators: to foster a safe, respectful, and nurturing environment where all children can thrive and grow. I urge you to vote to pass on this bill.
