

Curtis Oliver  
Portland  
LD 2106

I am a firm believer that the constitution is the thread that holds the fabric of this country together, today and for the last 250 years. The fifth amendment clearly states that all persons have a right to due process. The armed and masked federal agents entering schools, hospitals, and libraries without judicial warrants directly violate this core value. This violation infringes upon our community's safety and freedom.

I urge you to support LD 2106 to protect our community and our country.
