

Kendall Jones
Biddeford
LD 2106

My name is Kendall Jones, from Biddeford, and I'm writing in support of LD 2106.

Across our country, we have seen repeated examples of immigration enforcement actions that have caused serious harm to individuals and families, often extending far beyond their intended targets.

The people in the spaces addressed by this bill — schools, hospitals, childcare centers, and libraries — are among our most vulnerable. They deserve to be able to learn, receive care, and seek information without fear of sudden intrusion or lasting trauma, whether or not they are even the subject of enforcement.

It is deeply troubling that legislation is needed to protect what should be common-sense safe spaces, but this is precisely why LD 2106 is necessary.
