

Mary Born  
Brunswick  
LD 2106

I am writing to urge you to vote Ought to Pass on LD 2106. This would require Federal law enforcement to obtain judicial warrants signed by a judge in order to conduct immigration enforcement in places like public schools, public health facilities, public libraries, and daycare centers. It would also protect due process and strengthen protections against unlawful search and seizure. ICE and CBP have done tremendous damage to communities in our country. Now they are in Maine doing similar harm to our neighbors. We must have protection from these renegades.
