LD 2106

Our Maine legislators Maine MUST pass LD 2106 now!  
No Maine parent should be afraid to send their child to school or take them to the doctor. No Maine child should be afraid to go to school, the library, or even play outside.  
No one should worry their child or parent will not arrive home at the end of the day. LD 2106 would add oversight (in that a VALID judicial warrant signed by a judge would be required to conduct enforcement at schools, hospitals and healthcare facilities, daycares, and libraries).

LD 2106 would protect people's information that might be held at these places. Further, the bill provides guidance and support to teachers, healthcare workers, and other employees at these locations, ensuring they are not put in crisis situations.  
I am horrified that these protections are not already inherent in our laws and mores.  
Legislators: Do Your Job. Pass this bill.
