

Sydney Harris  
Portland  
LD 2106

Members of the Committee:

I'm submitting this testimony as a concerned resident of Portland who is appalled by the behavior of I.C.E. agents under this administration. I strongly urge you to vote YES on LD 2106 so we can restore some common sense to our communities. It used to be bipartisan logic that federal immigration enforcement actions didn't happen at places like schools and hospitals. These are crucial services for all Maine residents and everyone should be able to access them without fear or disruption. It's simply inhumane and wrong - not to mention totally unnecessary. Please end this insanity by supporting this bill.

Thank you,  
Sydney
