

Ann Morrill  
South Portland  
LD 2106

My thanks to members of the judiciary committee for your attention, on an emergency basis, to L.D. 2106. All Mainers, regardless of citizen or residency status, should feel safe to go about their daily affairs in a safe manner, without fear of being accosted, assaulted, or kidnapped by armed, masked, unidentifiable, and unaccountable thugs. Anyone authorized by our government to take custody of an individual because of their status should be required to wear the uniform of their agency, a personal name tag, and no mask. Arms should be prevalent only when there is documented reason to suspect dangerous or violent behavior, and signed judicial warrants should be an absolute prerequisite. My many thanks to you all for your efforts to make Maine safer and saner.

Best regards, respectfully. Ann

Morrill
