

Cheyenne Adams  
West Bath  
LD 2106

Hello, I'm submitting this testimony in support of LD2106, which maintains constitutional protection from unreasonable search for all members of Maine communities. Especially considering the violent tactics used by federal agents in recent weeks, which have been impacting even community members that are completely uninvolved in the enforcement activities and just happen to be in the wrong place at the wrong time, I want to know that my child is safe when I drop him off at daycare. I want my legislators to take action toward ensuring that my child is safe when I drop him off at daycare. I urge you to pass this bill.
