Georgetown
LD 2106

I support LD 2106.

I believe at the very least for a federal agent to be allowed into places of service to our communities, they MUST show a valid judicial warrant.

Now, more than ever, Mainers need to know their rights when encountering federal agents. We also need to know that our representative are defending our rights at the legislative level.

Our vulnerable populations need to be cared for in places like libraries, schools, daycares, healthcare facilities and these are places that all Mainers utilize and the most needy and vulnerable among us rely on. We cannot let politics get in the way of basic human rights.

Please pass this promptly and decisively.
