

Eleanor Weisman
Belfast
LD 2106

I am writing in support of LD 2106. I am a retired educator and know that students need not only to feel safe at school, but more importantly, to BE safe at school. LD 2106 will help protect our immigrant students and their families. We Mainers benefit from the contributions immigrants make to our workforce, our economy, and to our vibrant culture. It is the responsibility of our state to protect our immigrant communities at school, libraries, and hospitals. Please support LD 2106.
