LD 2106

I'm writing to voice my support for passing LD 2106. Everyone in the state of Maine should feel safe to access essential spaces, especially those discussed in this bill. ICE's access to these spaces endangers everyone in our state, and will serve to dissuade members of immigrant families especially from using these essential spaces. Kids should be able to play at daycare, students should be able to learn at schools, and patients should be cared for in health facilities without the fear of abduction or harm. Please pass this bill immediately and protect everyone in the state of Maine.
