Auburn

LD 2106

I am writing testimony in support of LD# 2106, An Act to prohibit the Disclosure of Nonpublic Records Without Proper Judicial Review. This is due for hearing before you on 1/29/26 at 1 pm. No entity, let alone one without oversight such as ICE, should be allowed to enter a school, day care site or library with merely a warrant for arrest (Administrative warrant). These are essentially private places where the public is only allowed within parameters. They are places meant for the inhabitants to feel safe, and the presence of ICE instead creates fear. Records kept in these locations are private and ICE should not have access to them without a court-signed Judicial Warrant.

Thank you,  
Alice Haines
