As a community, Maine is struggling. We are tired, and a bunch of unidentified, undertrained, and aggressive ICE agents are stomping over our rights. THE VERY LEAST we can do is require them to have warrants to entire high-risk areas. I can't believe this doesn't exist already. Regardless of your stance on immigration, the way this is being handled is not safe and not ok. It sets an extremely dangerous precedent, and truly feels like we're living in a dystopia. You are legislatures, and you need to do something to protect us.
