LD 2106

Dear Committee,

LD2106: An Act to Prohibit the Disclosure of Nonpublic Records Without Proper Judicial Review is a crucial bill. It helps to uphold the foundational laws and principles of this nation and this state. Here we believe in due process. We believe that all people are innocent until proven guilty. It is important that we stand by those principles and uphold the founding values of our nation.

It is crucial to have adequate protections of confidential information. There is a time and a place to disclose personal information about people to the police when there is a clearly documented cause that has been overseen by a judge. But those rules and that information is not to be taken lightly and right now it needs additional legislative backing.

It also means keeping private spaces private. We want our children to have a safe experience at school. It is not a place for groups of ICE-agents. Kids have the right to be protected from that disruption while they are trying to learn. Additionally hospitals are where people go when they are sick or injured and are very vulnerable. Just like children they need extra care and protection.

I urge you to pass LD 2106, to uphold the laws of our country and protect those who are most vulnerable.
