LD 2106

I want to express my support for the LD 2106 bill. I want our schools and hospitals to be safe places where ICE cannot come and kidnap my friends and neighbors. We have to pass this bill to keep our people safe. One of Trump administration's first act was to eliminate the federal policy that prohibited ICE enforcement to enter places like our schools and hospitals. I don't want my friends to be taken, when they're at school they shouldn't have to worry about things like that. School should be a safe place for kids.
