

Nancy Martin
Trenton
LD 2106

My name is Nancy Martin and I live in Trenton ME 04605. On January 29 at 1PM the Judiciary committee is holding a hearing on LD 2106. I write in support of Select LD 2106, An Act to Prohibit the Disclosure of Nonpublic Records Without Proper Judicial Review.

I have a right to privacy under the Constitution of the United States and I fear that right has been usurped by the federal government through demanding such records and intimidating entities that refuse to comply. If the Maine legislature can ensure proper judicial review of ICE operations in Maine and prevent ICE or any other entity from using fear and intimidation to discourage Mainers from going to school, the doctor, their library or healthcare settings I am all for it.

Please pass Select LD 2106 to protect all those living and working in this great state. We are all neighbors and should stand together to protect each other from government overreach.
